

PANELS DISCUSSION, FORUM, TRAINING & INSPIRATION

For all those who make light - planners, architects, decision-makers and influencers for lighting and building automation & the public interested in light.

A day for professional dialogue on the major future requirements of environmentally compatibility and sustainable lighting.

WE DISCUSS WITH RENOWNED EXPERTS

- how we can best reconcile the protection of the environment, biodiversity, natural night and lighting
- how we can create more circularity & C2C in the lighting industry
- which approaches can lead us to more sustainability in luminaire manufacturing and much more.

A pilot event and appealing forward-looking platform for interdisciplinary networking and reverberating exchange. Herald of an innovative trade fair concept in 2024
