Together Towards Lighting With Future

Quelle: www.gather-around-light.net

We are an informal network of people who are enthusiasts for light and darkness: planners, designers, scientists, artists, thinkers, manufacturers, sales and distribution and so-called amateurs.

We organize the monthly Berlin Light Roundtable and regularly initiate events on the topic with cooperation partners; in doing so, we always think outside the box and connect the most diverse perspectives.

In our civil-professional voluntary engagement we show that with passion you can make a difference.

More at: <https://gather-around-light.net/>

Contact: events@gather-around-light.net

Our mission: Sustainability in artificial light needs publicity and voices to communicate it: A complex, as well as essential, topic that we want to approach from a variety of perspectives and make it BIG - beyond the monthly meetings of the Light Regulars' Table and events exclusive for professional - including citizen participation..

Light pollution and impairment of the biosphere due to inflationary and incorrect lighting (10% increase per year worldwide).

Littering due to incomplete recycling at the end of product life.

Environmental degradation through primary raw material extraction.

„Naturally“ things can be done differently - we

will show this from various perspectives in a symposium over one day. We ask questions to international experts from architecture, politics, administration, science, lighting planning, design, manufacturing of luminaires and circular economy. We gain insight into their perspectives and alternative options. The round tables will be complemented by a gallery exhibition where we will present further products and positions on the topic.

05.11.2024

- 12:00 Partner Tour
- 13:00 Admission
- 13:30 Intro
- 14:00 Impulses
- 15:00 Networking
- 16:00 Debate
- 17:00 Evening Event, special Guestm& Tour Mindful Light

06.11.2024

- 21:00 Eng
- 09:00 Admission
- 09:30 Intro
- 09:45 Impulses
- 10:45 Networking
- 11:45 Debate
- 12:45 Summary
- 13:00 End Symposium
- 13:30 Partner Tour

07.11.2024 public's day

- starting 09:30
- open talks within the Planners Dialogue of the Belektro
- 6x 20+5 minutes on sustainability, environmental compatibility etc. in lighting - in planning
- Time for Networking

For a balanced relationship between nature and industrial culture
